Psychotherapy Pre-Authorization Information

Brian Peacock, Psy.D.

To confirm benefits are available through your insurance company, you will need to obtain pre-authorization for out-of-network services. A guide for this process can be found here. You may need the following information:

- **Information about my practice:**
  - Practice: Peacock Psychology, LLC
  - Provider: Brian Peacock, PsyD (Licensed Psychologist, MD #07046)
  - Address: 1414 Key Highway Suite 300P, Baltimore, MD 21230
  - Phone: (443) 565-6468
  - NPI#: 1003625377
- **Procedure Codes/CPT Codes:** 90834, 90791, 90837, 99447, 99448, 99449, 90839, 90840, 90846, 90847, 99422, 99423
  - 90834 is the primary code used for psychotherapy sessions and are critical to reimbursement.
  - The other codes are sometimes used in different situations (emergencies, family sessions, consultation with other providers, etc.). It is ideal if those codes are also pre-authorized, but not essential.
- **A referral** from your primary care doctor is sometimes but not always needed.

Superbill will be generated after therapy sessions, which you will send to your insurance company for reimbursement. It can take some time to receive reimbursement. You are responsible for paying all fees, regardless of whether or not your insurance company reimburses you.

If you have any questions, please reach out to Dr. Peacock's office.
